Construction News

PRICES AND BUSINESS CONDITIONS.

Although for a number of months past business in all lines affected by the war has been rushed, it is safe to say at this time that the foreign demand no longer overshadows domestic requirements. Even those lines of business that are last to feel the effects of good times are now busy, and in a great many cases with more orders than they can handle.

Prices for steel, iron and other metals are still advancing, with the high mark still to come. Some of the mills are sold so far ahead they are refusing any new foreign business in an effort to take care of the domestic trade. Outputs of record proportions are not sufficient to fill orders, and under the circumstances making deliveries is more important than getting new business. Tin plate for 1916 has advanced 40c. a box. Plates command a premium in most cases for prompt shipment. Dealers in black and galvanized sheets are sold so far ahead that one concern has been notified by their mill to accept no more orders before Aug., 1916, delivery. Coke is a little easier for prompt shipment than it has been, although lack of labor seems to be a serious handicap to any better conditions at present.

Scarcity of transports and lack of vessels for exporting are still tying up the supply of cars on the railroads, one of the western roads unloading all its cars either in St. Louis or Kansas City, in order to relieve the shortage west of that point. The railroads have placed orders with the car shops for over, 80,000 cars, and it is estimated that there are inquiries for about 60,000 more, the placing of which will be dependent on the builders getting the amount of steel necessary to build them. Orders for over 300,000 tons of rail were placed by the roads in November, and there are inquiries outstanding for at least 150,000 tons more. The railroads are showing a marked increase, both in their gross and net earnings. In the second week in November there was an increase of 25.7 per cent. in the gross earnings of the railroads which sent in their statements, and net earnings show an increase of between 20 and 25 per cent. This is not confined to any particular part of the country, but is general in all sections.

The lumber industry, which has been one of the last to be affected by good times, is now very busy, particularly in the case of yellow pine, which has advanced over $2 per thousand in the past six weeks. The railroads and car companies are buying liberally, and there is a good export demand. Dealers are expecting a large volume of business when the building season opens in the spring. The paint industry, which follows with the lumber business, is correspondingly busy, and the manufacturers are not accepting any future orders at prevailing prices, and are prophecying a considerable advance for 1916.

A marked improvement in the condition of the labor market during October and November, in spite of the greatly increased demand, is noticed. While unemployment has shown further decreases, the demand for labor has spread to practically all basic industries instead of being confined to munition plants and the metal working trade. It would seem that with the advance in prices of all building materials concerns would be somewhat cautious about doing any new building at the increased cost, but this does not seem to hold true. As the prices steadily increase we note a marked increase in building permits and sales of bonds for public work all over the country.

Official figures from Canada explain that the yield of Canadian wheat for this year was underestimated by more than 100,000,000, bushels, making a total of about 300,000,000 bushels from Canada alone. The British Government has attempted to forestall any cornering of the market in raising of prices by seizing the wheat in some of the Eastern elevators for which they are to pay the owners a fair price. It is understood that both in the United States and Canada that the 1916 grain crop will not be as heavy as this year. The immense yield of the present season and the consequent reduction of prices will have a tendency to discourage extraordinarily large seedings. The lateness and immensity of the small grain crop have made it almost impossible for farmers to get in the usual amount of their fall plowing, and consequently they are not in position, even if they would, to plant the crops next year that they have had this year. This is in marked contrast to conditions prevailing a year ago when the price of wheat was high, and the lateness of the season permitted the farmer to prepare an extra large acreage for planting.

The Crop Reporting Board of the Department of Agriculture in a statement issued in connection with, but not made a part of the official report, shows a table comparing the production of this year with three previous years, showing that 1915 is ahead on production of everything with the exception of corn, which was larger in 1912. The five leading cereals give collectively a yield of some 358,000,000 bushels greater than any previous annual yield, and based on November 1 prices against 1914, are of value about $155,000,000 more than last year.

Business failures as reported by Bradstreet for the weeks of November 18 and 25 are less than they were in 1914. For the week of Nov. 25 reporting 295, and Nov. 18, 389. About 86% of the total number, were less than $5,000, and 9% under $20,000 which leaves 5% of the failures over $20,000.

Money is very plentiful. In the past few days loans amounting to something like $206,000,000 having been announced in Wall Street. Part of these are domestic, and the balance the foreign powers. Russia has practically concluded negotiations for a $60,000,000 loan and the London banks have completed their loan of $50,000,000, the balance of the $206,000,000 having been loaned to different railroads throughout the country, most of it for much needed improvements.

CEMENT, STONE AND GRAVEL

Sand and Gravel—Local dealers say that business is still very good, and is considerably better than it has been for a number of years, although the volume of business has not seemed to have affected prices over the last two or three months. Sand is quoted at 45c. per cy.yd., some dealers asking 40c. on large orders. Gravel prices are as follows: Subway, 95c. per cu.yd., and paving, 75c. per cu.yd.; 1½-in. gravel, 80c. per cu.yd., and ¾-in. gravel at 85c. per cu.yd These quotations are for full cargo lots of 500 cu.yd., delivered alongside of docks, New York.

Portland Cement—Business particularly in the Eastern cement manufacturing zones has showed an increase of fully 50% over November, 1914, although during that period of last year business was not normal. Prices are still holding very stiff, and some of the mills are so far sold up that they are not soliciting orders for 1916 business. Prices are as follows:

New York	$1.27	Milwaukee	$1.48
Jersey City	1.21	Minneapolis	1.58
Boston	1.42	St. Paul	1.58
Chicago	1.31	Duluth	1.56
Pittsburgh	1.41	Peoria	1.39
Cleveland	1.45	Cedar Rapids	1.50
Detroit	1.40	Davenport	1.40
Indianapolis	1.44	Denver	2.28
Toledo	1.44	San Francisco	2.30

The above prices are exclusive of package and for carload lots f.o.b. cars at places named. To contractors 45c. is added to the above figures, including charge for buying. To dealers 40c. is added to the above figures.

Bluestone—During the early part of the month there seemed to be a great deal of price cutting among the different dealers which to some extent was brought about by close competition. Greater efforts were made by some of the important dealers to get new customers, and as a result this necessitated some price cutting in order for some of the interests to retain their present customers. The outlook at present is more optimistic than a month ago, and business has shown considerable improvement. At present prices are more firm than in the past few months, and are as follows:

Bronx flagging 17c. per sq.ft.; Manhattan, 18c. per sq.ft.; curbing, 5x16 in., 40c. per lin.ft.; 5x20 in., 45c. per lin.ft.; sewer bottoms, 5x5 ft. by 3 in., 25c. per sq.ft.; Belgian bridging, 5x24 in., 65c. per lin.ft.

Crushed Stone—Business still continues good; prices holding about the same as a month ago. For 1½-in., price ranges from 80 to 90c. and on ¾-in. from 90c. to $1. There is an indication of an advance in price if the continued scarcity of barges is not relieved. Most of the deliveries now being made are contracts signed up several months ago, and dealers are experiencing great difficulty in the delivering. Ordinarily, barges could be had for about $6 and now they are very hard to get for $10, on account of so many of the railroads storing freight on them, waiting for steamers to arrive. Dealers in the Boston report practically the same prices, together with the same difficulties in delivering.

IRON AND STEEL

Pig Iron—With production at probably the greatest capacity on record, and new business pouring in at an exceptionally heavy rate, prices have made conspicuous advances several times during the past month. The mills have been strained to such an extent that at present efforts are now being made to construct additions to the shops as well as build new furnaces. Buyers are so eager to place orders that they are offering premiums on the more important contracts. In anticipation of continued activity the United States Steel Corporation has already chartered a number of vessels for the delivery of ore for 1916. Orders now arriving at the mill call for, in some cases, delivery for the second half of the year of 1916. Prices in the Pittsburgh District have advanced $1 per ton. Basic is now selling at $16.25 and Bessemer at $17.95. It is reported that a few sales have been made at higher figures but such sales are unconfirmed. In Chicago, the activity is even more marked than a month ago, and prices have shown decided advances over that period. The following prices are f.o.b. furnace, and for the switching charge the average is 50c. per ton: Northern Foundry No. 1 sells at $18 and No. 2 at $17.50. These prices, of course, are well maintained. In the Birmingham District prices have advanced and the demand for foundry iron is exceptionally good. Southern Foundry No. 2 sells at $13.50 to $14, and No. 1 from $14 to $14.50. These prices are for delivery f.o.b. furnace.

In New York purchases have been more numerous than a month ago and prices have shown a decided advance. Northern Foundry No. 2 plain is now quoted at $17.25 to $17.50. No.

2X at $17.75 to $18. Southern Iron is $18.25 to $18.50 for No. 1 and $17.75 to $18.25 for No. 2 Foundry and No. 2 soft. Cincinnati prices are as follows: No. 2 Southern $16.40 to $16.90, Cincinnati Southern Foundry No. 2 is selling at $16.40 to $16.90. Cincinnati Northern Foundry No. 2 at $17.76 to $18.26.

Track Supplies—Along with the general demand for steel rails and other railroad supplies, the call for spikes has been excessive. Prices have advanced considerably in the past month. One of the most recent orders placed was that by the Erie R.R. calling for 22,000 kegs. Railroad spikes f.o.b. Pittsburgh sell at $2 per 100 lb. for delivery in the first quarter, and small railroad spikes are $2.10 to $2.25. Track bolts now sell at $2.50 per 100 lb. and tie plates at $34 to $35 per ton. Standard section angle bars are selling at $1.50 to $1.75.

Steel Rails—Although most of the larger interests have already placed their orders for 1916 rails, still a number of small orders are being received calling for 300 to 1,000 tons. The demand for light rails is still very good, and the lumbering interests, as well as the coal operators, have placed considerable business with the mills. Standard section bessemer rails are quoted at $1.25; openhearth rails, $1.34; light rails, 8 to 10 lb., $1.60; light rails, 8 lb., $1.49; light rails, 12 to 14 lb., $1.55; light rails, 12 lb., $1.44; light rails, 16 to 20 lb., $1.50; light rails, 25 to 45 lb., 1.45. These prices are per 100 lb. f.o.b. Pittsburgh in carload or larger lots. For less than carload lots 5c. per 100 lb. extra is charged.

Structural Material—Although in the building line the demand for structural material has not been so apparent as during the month previous, the call for structural material has in no sense diminished. Car builders have entered the market and have placed very generous orders. Several advances have been made during the month, but had no effect in curtailing the demand. Mills are about sold up and have been postponing deliveries in a great many cases. Prices, as a result of course, are very steady, and beams and channels up to 15 in. are quoted at $1.70 f.o.b. mills. For prompt deliveries 2c. and over has been paid. The above quotation includes beams up to 15 in., channels 3 to 15 in., and angles 3 to 6 in.; tees 3 in. and over. Cutting to specified lengths is charged at the following rates: 2 to 3 ft. inclusive, 25c.; 2 ft. to 1 ft., 50c.; under 1 ft., $1.50. No charge is made for cutting to specified lengths over 3 ft. This price in Chicago is equivalent to $1.89 to $1.99; in Philadelphia, $1.859 to $1.909; in New York, $1.869 to $1.919; in San Francisco, $2.05.

Pipe—Since last month's issue, the price on black pipe has increased 1% and present indications favor a further advance. At present the following prices are firmly held.

On carload lots f.o.b. Pittsburgh the following discounts hold:

	Black	Galvanized
¾ to 2-in. steel, butt welded	78%	63½%
2½ to 6-in. steel lap welded	77%	62½%
7 to 12-in. steel lap welded	75%	58½%

At this rate prices are as follows:

	Cents			Cents	
Diameter	Black	Galvanized	Diameter	Black	Galvanized
¾-in.	2.53	4.19	5-in.	34.04	55.50
1-in.	3.74	6.30	6-in.	44.16	72.00
1¼-in.	5.06	8.39	7-in.	59.50	98.77
1½-in.	6.05	10.02	8-in.	62.50	$1.03
2-in.	8.15	12.55	9-in.	86.25	1.43
2½-in.	13.45	21.92	10-in.	$1.03	1.70
3-in.	17.59	28.68	11-in.	1.16	1.92
4-in.	25.07	40.87	12-in.	1.27	2.10

Sheets—The phenomenal demand for black galvanized sheets caused several advances in price during the month and the mills are so well booked with orders that deliveries in most cases are not promised before April. One of the more important factors in this line refuses to quote for delivery prior to August. Quotations given below are for large lots f.o.b. Pittsburgh and small lots New York:

	Cents per Pound			
	Large Lots Pittsburgh		Warehouse Delivery New York	
	Black	Galv.	Black	Galv.
No. 10	2.05	3.25	2.55	....
No. 12	2.05	3.35	2.55	4.15
No. 14	2.10	3.35	2.60	4.15
Nos. 18 and 20	2.20	3.60	2.80	4.40
Nos. 22 and 24	2.25	3.80	2.85	4.55
No. 26	2.30	3.95	2.90	4.70
No. 27	2.35	4.10	2.80	4.85
No. 28	2.40	4.25	3.00	5.00

Cast-Iron Pipe—Quite a number of fair-sized contracts for water pipes have turned up during the month, and several large gas companies have entered the market for considerable supply. Due somewhat to the war business in this country, a number of companies have been forced to make extensions to existing lines. Increased cost of raw materials along with the improvement in business has caused an advance in the price per ton over last month, and in New York we quote carload lots of 6-in. Class B and heavier at $27 per net ton Tidewater; Class A and gas pipe at $28 per ton. Birmingham f.o.b. makers' yard per net ton as follows: 4-in., $23.50; 6-in. and upward, $21.50; gas pipe, $1 per ton extra. In this section it might be noted that the advance has been $1.50 the last month. In the Chicago district the following prices hold per net ton: Water pipe, 4-in., $29; 6-in. and larger, $27; Class A water pipe and gas pipe with an extra charge of $1.

Chain—Due to the advance in the cost of raw materials, the price has advanced 50c. per 100 lb. Business is very good and the following quotations hold firm and steady:

¾ in.	$8.00	½ and ⅝ in.	$3.50
1/2 in.	5.45	⅝ and ¾ in.	3.40
5/16 in.	4.45	¾ and ⅞ in.	3.30
⅜ in.	3.90	⅞ and 1 in.	3.20
7/16 in.	3.70	1 to 1¼ in.	3.10

The above prices are per 100 lb. f.o.b. Pittsburgh.

EXTRAS TO ABOVE LIST PER 100 POUNDS

	For BB	For BBB
¾-in. and ¼-in.	$1.50	$2.00
⅜-in. and larger	1.25	1.75

Triangle Mesh—The call for this material continues and the consequent advance in the price of other metal products caused the general revision in the quotations for this material. As we go to press the following quotations hold steady.

PRICE PER 100 SQ.FT. FOR FOUR-IN. MESH

		Plain Material		Galvanized	
Style No.	Cross-Sec. Area per Ft. Width	Carload Lots	Less Than Car Lots and Over 10,000 Sq.Ft.	Carload Lots	Less Than Car Lots and Over 10,000 Sq.Ft.
*4	0.102	$1.14	$1.25	$1.35	$1.46
5	0.077	.90	.99	1.07	1.16
6	0.058	.72	.78	.85	.92
*7	0.041	.56	.61	.66	.71
*23	0.170	1.91	2.09	2.27	2.45
24	0.142	1.64	1.80	1.95	2.11
25	0.124	1.46	1.60	1.73	1.87
*26	0.110	1.33	1.45	1.58	1.70
*27	0.085	1.09	1.19	1.29	1.39
28	0.66	.90	.99	1.07	1.16
29	0.049	.74	.81	.88	.95
31	0.261	2.81	3.07	3.34	3.60
32	0.225	2.44	2.67	2.90	3.13

34	0.140	1.67	1.83	1.98	2.14
35	0.109	1.33	1.45	1.58	1.70
36	0.075	.98	1.07	1.17	1.26
38	0.380	4.00	4.38	4.76	5.13
*39	0.325	3.45	3.77	4.10	4.42
40	0.283	3.02	3.31	3.59	3.88
41	0.208	2.31	2.52	2.74	2.96
42	0.151	1.75	1.91	2.08	2.24
43	0.101	1.25	1.36	1.48	1.60

*This material is made in regular widths of 18, 22, 26, 30, 32, 42, 46, 50, 54 and 58 in. Standard lengths of rolls are 150, 300 and 600 ft. Cutting to special length is charged extra.

Bars—Concrete Reinforcing—Mills are so busy turning out bars that they are not promising delivery on any new business for at least six or eight months. Over last month the price has advanced 20c., and it is safe to predict from the extraordinary amount of business on hand that a further advance is more than likely to take place. In this respect it is clearly shown that increases in the price does not at all curtail the demand. As we go to press, the following prices are effective:

	Cents per Pound		
	Mill Shipment Pittsburgh	F.o.b. Warehouse Pittsburgh	Delivered From Warehouse New York
¾ in. base	$1.70	$2.35	$2.35

Wire Rope—The same steady volume of business continues, and prices over the preceding month remain unchanged. On galvanized the discounts are 40 and 2½% off list. On bright they are 55 and 2½%. Special brand brights are selling at 50 and 2½% off list. At these discounts, the net price of wire rope at the mills is as follows:

Diameter in Inches	Price per Foot		
	Cast Steel	Crucible Steel	Plow Steel
2½	$0.77	$0.92	$1.10
2¼	0.63	0.75	0.88
2	0.51	0.59	0.70
1¾	0.40	0.48	0.57
1½	0.29	0.35	0.41
1¼	0.20	0.25	0.29
1	0.14	0.16	0.19
¾	0.08	0.09	0.11
⅝	0.07	0.07	0.08

Expanded Metal Lath—Business continues very good, the dealers complain that they have more orders than they can fill, on account of the lack of stock. Prices remain the same as last month, but expected increase is due around the first of the year.

Prices for painted are as follows:

Gage	Weight	Carload	1,000 to 5,000	Under 1,000
27	233	$11.44	$12.52	$13.52
26	250	12.47	13.55	14.55
25	300	13.57	14.66	15.66
24	340	14.64	15.75	16.75
22	450	17.54	18.75	19.75

For galvanized cut in sheets, add 6c.

Freight Rates—The freight rate on finished steel products in the Pittsburgh district, including plates, structural shapes, merchant steel, bars, pipe fittings, plain and galvanized wire nails, rivets, spikes, bolts, black sheets (except planished), chain, etc., are as follows in cents per 100 lb.; Boston, 18.9; Buffalo, 11.6; Baltimore, 15.4; Cleveland, 10.5; Cincinnati, 15.8; Chicago, 18.9; Denver, 68.6; New Orleans, 30; New York, 16.9; Philadelphia, 15.9; St. Louis, 23.6; Minnesota and St. Paul, 22.9. Pacific Coast (all rail), 73.9.

Steel Sheet Piling—The price remains unchanged at $1.50 to $1.55 per 100 lb. for base sizes f.o.b. Pittsburgh.

Plates—Demand for plates has been exceptionally good and railroads have placed many orders for cars and locomotives, also shipbuilders have received contracts for vessels which has stimulated business to a great extent. However, a very recent report states that the Pennsylvania R.R. has recently withdrawn its inquiry for 11,000 cars because of the high prices quoted by the builders, who are having difficulty in getting deliveries on car wheels. Plate mills are well filled with orders for the first quarter, and deliveries are now being promised more or less at the convenience of the mills. Plates are nominally quoted at $1.75 per 100 lb., but for early delivery, $1.90 to $2. In Chicago, $1.89 to $1.99 is demanded; in New York, $1.87 to $1.97.

Old Material—The market for old material is exceptionally strong; prices have jumped since the last month and are well maintained. Very heavy sales are being reported and orders are pending calling for large quantities. In New York the improved conditions are very perceptible, and the following prices are being paid to dealers and producers per gross ton in this section:

Heavy melting steel scrap	$12.75 to 13.75
No. 1 railroad wrought	15.00 to 15.25
Stove plate	9.75 to 10.00
No. 1 machinery cast	12.75 to 13.00
Wrought turnings	7.75 to 8.00
Cast borings	77.5 to 8.00
Railroad malleable cast	10.00 to 10.50
No. 2 heavy cast	11.75 to 12.00

In Chicago the offering includes a number of large tonnages, cast scraps and rails, also a considerable amount of car wheels. The consumers show heavy demand for scrap materials and prices have advanced and are well maintained. For delivery at the buyer's works, Chicago and vicinity, including freight transfer charges, the following quotations hold:

Heavy melting steel scrap	$15.00 to 15.50
Old steel rails rerolling	15.25 to 15.50
No. 1 railroad wrought	14.00 to 14.50
No. 2 railroad wrought	13.00 to 13.50
No. 1 cast scrap	13.00 to 13.50
Pipes and flues	10.75 to 11.25
Agricultural malleable	10.50 to 11.00
Railroad malleable	13.00 to 13.25
Cast borings	6.75 to 7.00

Merchant Steel—Warehouse business has been so very good the last month that stocks are pretty well depleted, dealers having some difficulty in placing orders at the mills. As a result, prices have advanced every week in the past month, and the present quotations given below are very firm, and indications forcast further increase. Quotations as given below are the general base prices for small lots in jobber's store:

Refined iron:	Cents Per Pound
1 to 1⅞ in., round and square	2.35
1½ to 4 in. x ⅜ to 1 in.	2.35
1½ to 4 in. x ¼ to 7/16 in.	2.55
Burden's bar iron	3.05
Norway bars	4.50
Soft steel:	
¾ to 3 in., round and square	2.35
1 to 6 in. x ⅜ to 1 in.	2.35
1 to 6 in. x ¼ and 7/16 in.	2.40
Rods—⅝ and ½	2.45
Bands—1½ to 6 x to No. 8	2.65
Beams and channels—3 to 15 in.	2.40
Angles:	
3 in. x ¼ in. and larger	2.40
3 in. x 7/16 in. and ⅜ in.	2.85
1½ to 2½ in. x ⅛ in.	2.60
1½ to 2¾ in. ¼ in. and thicker	2.50
1 to 1¼ in. x 7/16 in.	2.60
1 to 1¼ x ⅛ in.	2.65
Tees:	
1½ to 2½ x ¼ in.	2.55
1½ to 2½ x 7/16 in.	2.65
3 in. and larger	2.45

METALS

Copper—A very large business has been done in electrolytic copper in the past month, with a steady increase in price noted. The price of electrolytic the first of November was 18¼c. against the price of 20c. at the present time. Lake copper was selling at that time for 18¼c. and i snow selling for 20c. Business has been very good up until last week, when the 20c. price went into effect, since which time there has been a little lull. It is interesting to note that a year ago at this time copper was selling at $11.75.

Tin—Tin opened up the first week of November at 36c., with a drop the following week of 2¼c. After that continued buying forced the prices up. Until about the 25th of the month tin was selling at 43c. Since that time numerous reports have beared the market to some extent, and the price is now 40c. per lb.

Lead—The market on lead has been quieter than other metals, with less advance. There has been an advance over last month from 4.9c. to 5¼c., due to large export buying. Domestic trade is moderate, and dealers think that if the continued price holds there is enough incentive for smelters to stock well ahead.

Spelter—There has been a large demand during the past month for spelter, prices showing more of an increase than any of the other metals listed. A month ago this was selling for 14c. and 20c. is now being asked for futures with prompt shipment at 19c., with a very brisk market. At the price at which this is held, it is unprofitable for anybody to buy unless absolutely necessary, and this should curtail the demand enough so that a drop in price ought to be noticed shortly.

OLD METALS—The market is strong. The following are the dealers' purchasing prices in New York:

Copper	Cents per Lb.	Brass	Cents per Lb.
Heavy and crucible	16.50	Heavy	11.50
Heavy and wire	16.00	Light	9.50
Light and bottoms	14.00	No. 1 yellow rod turnings	12.00
Lead		No. 1 red turnings	11.00
Heavy	4.50	Zinc	12.00
Tea	4.25		

MISCELLANEOUS

Asphaltum—The demand still continues very heavy and will continue so until the paving season is finally closed. If the season in the north had not practically closed at the present time, prices would have been advanced on account of the scarcity of Mexican petroleum compared to the phenomenal demand. Business has been better than ever before in this line, and dealers figure that next year will be the largest year in the history of the business. Prices remain $15 per net ton in wooden packages in New York and about $19 in Chicago.

Labor—The market for unskilled labor is in about the same position as it was a month ago, being almost impossible to get men to go away from the cities without extra inducements being offered. Unemployment has dwindled to insignificant proportions, and numerous cities report a paucity of help, which is likely to become more marked as the season advances. A development that is all the more remarkable because at this season outdoor work usually slackens. The price for laborers is $2 a day for an 8-hr. day around New York.

Railway Ties—It is clearly evident that conditions have now reached a turning point. Inquiries now in the market for ties have been received from a great many of the principal roads in the country, and in most cases call for a very good supply for 1916 requirements. The Italian Government very recently appeared in the market for several million feet of yellow pine lumber, and as a result this caused some concern to tie manufacturers. In some cases it is believed that some of the railroads entered the market because of this. The freight situation shows no improvement, and partly as a result prices have advanced. Should business develop at the same rate as it did during the latter part of this month, a revision in the price is more than likely to take place. At present, however, the following prices hold:

First-class standard ties 7x9 in. by 8 ft. 6 in., 77c.; 6x8 in. by 8 ft. 67c. These prices are f.o.b. New York.

Sewer Pipes—Dealers report prices somewhat better in this line than a month ago, and a slight increase in price is noted with a prospect of a future advance. Discounts are as follows:

3 to 24"-80% off list; 27 to 30"-70% off list; on 30 to 36"-65% off list. At this rate prices are as follows:

PRICE OF SEWER PIPE PER FOOT

Size	Price	Size	Price
3-in.	$0.05	18-in.	$0.38
4-in.	.05	20-in.	.45
5-in.	.08	22-in.	.60
6-in.	.08	24-in.	.65
8-in.	.11	27-in.	1.35
10-in.	.16	30-in.	1.65
12-in.	.20	33-in.	2.187
15-in.	.27	36-in.	2.45

Flue Lining—Business is increasing and dealers are expecting another increase in price over the one noted in this issue. The present discount being 81% off of list. At this rate prices are as follows:

FLUE LINING—PRICE PER FOOT

Size in In.	Weight in Lb.	Price per Ft.	Size in In.	Weight in Lb.	Price per Ft.
4½x 8½	14	$0.066	8½x13	28	$0.123
4½x13	20	.085	8½x18	45	.17
4½x18	40	.19	13 x13	38	.16
7 x 7	15	.076	13 x18	57	.228
8½x 8½	18	.085	18 x18	75	.38

Glass—Market conditions have improved greatly in the past month, and at the present time large manufacturers claim that business is almost normal. The tendency seems to be to higher prices, and it is expected within a very short time there will be an increase. Prices as follows: Window: Single strength, 1-3 brackets inclusive, B quality, 90% and 30%; single strength, 1-3 brackets inclusive, A quality, 90% and 20%; single strength, above 3d bracket, B quality, 90% and 10%; single strength above 3d bracket, A quality, 90%; double strength, all brackets, B quality, 90% and 20%; double strength, all brackets, A quality, 90% and 10%; single and double strength, AA quality, special prices. Plate, 90% and 40%. Skylight, ¼-in. wire rough or ribbed, 14c. per sq.ft. Boxing on above extra for out-of-town shipment.

Clay Drain Tile—Local dealers in this line are very much pleased at the amount of business they are doing and look to a big increase over present business in the early spring. Prices are as follows:

PER 1,000 SQ.FT.

2 in.	3 in.	4 in.	5 in.	6 in.	8 in.
$17.50	$22.50	$32.50	$47.50	$57.50	$97.50

These prices are in carload lots, f.o.b. New York.

RAILWAYS—STEAM AND ELECTRIC

Proposed Work

Maine—Bar Harbor & Union River Power Co. plans to build electric line from Bluehill Falls to Brookline and Sedgwick, 14 miles. C. M. Tolman, Bangor, Maine, Ch. Engr.

Maine—Mattawamkeag & Northern Ry. received charter to build line from Mattawamkeag northwest via East Millipocket to Millinocket, 23 miles. Charles W. Mullen and I. B. Wood, Bangor, interested. Noted Nov. 18.

Massachusetts—Bay State Street Railway Co. received franchise from Council to double track line on new river boulevard from Lowell St. to Lawrence Line. R. S. Goff, Boston, Mass., Vice-Pres. and Gen. Mgr.

Massachusetts—Holyoke Street Railway Co. contemplates extending line in South Hadely Falls on West Main St. to Canal St., Canal to Taylor St., Taylor to West Main St. Louis D. Pellissier, Holyoke, Gen. Mgr. and Pur. Agt.

Connecticut—New York, New Haven & Hartford R.R. will expend $17,000,000 for improving its line as follows: Additional electrification to get full benefit of that already done, $1,500,000; trackage, yards and sidings, $3,000,000; improved signals, $1,000,000; rolling stock, $9,000,000.

Pennsylvania—Baltimore & Ohio R.R. Co. contemplates constructing third track from Green Junction to Indian Creek, seven miles. F. L. Stuart, Baltimore, Md., Ch. Engr.

Pennsylvania—Highland Grove Traction Co. contemplates extending line from McKeesport to East Pittsburgh. John M. Lyle, McKeesport, Gen. Mgr. and Pur. Agt.

Maryland—Press reports state that Western Maryland R.R. contemplates double-tracking branch line from Cumberland to Hagerstown in spring. H. R. Pratt, Baltimore, Ch. Engr.

Virginia—Surveys completed and right-of-way secured by Norfolk, Washington & New York R.R. for line from Newport News, Va., to Washington, D. C., 159 miles, with branch line down Northern Neck, 50 miles. Channing W. Ward, Richmond, Va., Pres.

West Virginia—Baltimore & Ohio R.R. Co. will double-track its line from Fairmont to Wheeling, 77 miles. Estimated cost between $3,500,000 and $4,000,000. F. L. Stuart, Baltimore, Md., Ch. Engr.

West Virginia—Pond Fork Railway will award contract about Jan. 10 for 15-mile railway from Madison. According to press reports Cole & Crane will build several miles of logging road as an extension of Pond Fork Railway. F. I. Cabell, Richmond, Va., Ch. Engr. Noted Sept. 23.

North Carolina—Surveys being made for extension of line of Watauga & Yadkin River R.R. from Darby, N. C., to Rogers Mills, eight miles. H. C. Landon, North Wilkesboro, Gen. Mgr. Noted Sept. 16.

Florida—Pensacola, Mobile & New Orleans R.R. sold bonds to complete its line from Pensacola to Mobile, Ala., about 17 miles. Henry McLaughlin, Pensacola, Fla., Pres.

Tennessee—New Orleans, Mobile & Chicago R.R. contemplates extending line from Middleton to Jackson, Tenn. B. V. Wright, Laurel, Miss., Ch. Engr.

Tennessee—Tennessee Power Co., Chattanooga, plans to electrify six miles of its railroad from Parksville which connects with Louisville & Nashville R.R., near Shelton. F. W. Hoover, Chattanooga, Tenn., Gen. Mgr.

Indiana—Plans being considered for building electric railway from Washington and Linto via Bicknell, Frelandville, Pleasantville and Dugger. A. L. Brocksmith, Bicknell, interested.

Illinois—Blue Island Commercial Club, Riverdale Improvement Association, Dolton Civic Club, West Hammond City Club and the Hammond Chamber of Commerce, Chicago, interested in construction of railway from Calumet Park to State Line St., West Hammond.

Illinois—J. W. Kendrick in a report to Directors of Chicago, Rock Island & Pacific Railway recommended expenditure of $27,000,00 during next three years for rehabilitation of line. C. A. Morse, Chicago, Ill., Ch. Engr.

Illinois—Illinois Central R.R. will build double track line from Grayville to Metropolis, about 100 miles. A. S. Balwin, Chicago, Ill., Ch. Engr.

Iowa—Citizens of Sioux City plan to build interurban railway from Sioux City, Iowa, to Mitchell, S. D. Estimated cost, $1,500,000.

Iowa—Ft. Madison Street Railway Co. will rehabilitate its lines. Estimated cost, $50,000. D. A. Morrison, Ft. Madison, Pres., Gen. Mgr. and Pur. Agt.

Minnesota—Preliminary surveys being made for spur track from Steelton to Morgan Park for Spirit Lake Transfer Ry. Co., New Duluth, Minn.

Kansas—It is reported that Arkansas Valley Interurban Ry. Co. is considering plans to extend line from Wichita to Eldorado. Charles D. Bell, Wichita, Kan., Secy., Supt., Pur. Agt. and Ch. Engr.

Kansas—Wichita R.R. and Light Co., Wichita, plans to build line on East 13th St. D. I. Hayworth, Wichita, Ch. Engr.

South Dakota—Duluth, Huron & Southern Ry. plans to build line from Huron, S. D., to Duluth, Minn. G. W. Morrow, Sisseton, S. D., Vice-Pres.

South Dakota—South Dakota Packing and Shipping Co. will build spur track from Great Northern R.R. into yards of plant at Watertown.

North Dakota—Minneapolis, St. Paul & Sault Ste. Marie Ry. plans to build line from Max to Minot. C. N. Kalk, Minneapolis, Minn., Ch. Engr.

Montana—Great Northern Ry. Co. contemplates building a line from Scobey to Glentana, 50 miles, during 1916. A. H. Hogeland, St. Paul, Minn., Ch. Engr.

Missouri—Benjamin F. Bush, receiver for Iron Mountain R.R. and Missouri Pacific Ry., authorized to expend [illegible] new steel rails $175,000 for Iron Mountain R.R. and $53[illegible] for Missouri Pacific Ry. and $273,000 to improve road and equipment of both systems. E. A. Hadley, St. Louis, Cle[illegible] Engr., Missouri Pacific Ry.

Arkansas—Pine Bluff & Northern Ry. plans to build extension to line from Cullor, Ark., to Pine Bluff, 35 miles. E. C. Buchanan, Little Rock, Ark., Ch. Engr.

Texas—A. T. Perkins, 401 Locust St., St. Louis, Mo., Pres. Marshall & East Texas Railway interested in construction of railroad from Paris to New Orleans.

Texas—Street railways of Dallas contemplate building loop around block surrounded by Jefferson, Jackson, Houston and Young St. to provide service to union terminal stations. Edward T. Moore, Dallas, Mgr. of Dallas Consolidated Electric Street Railway Co., Rapid Transit Railway Co. and Metropolitan Electric Street Railway Co.

Texas—Proposition being considered for building gas-electric interurban railway from Buena Vista to connect with Orient R.R. and run northwest up Pecos Valley, 35 miles. Pecos Valley R.R. Association interested. V. L. Sullivan, Chn.

Texas—Press reports state that Southern Traction Co. plans to extend line from Waco south to Austin, about 100 miles, thence to San Antonio, 82 miles. R. B. Stuchter, Dallas, Tex., Gen. Mgr. and Luther Dean, Dallas, Ch. Engr.

Colorado—It is reported that the business men of Tulsa, Okla., plan to build railway from Colorado Springs east to Ordway and Garden City, Kan., and from Garden City, Kan., to Tulsa, Okla.

Idaho—Sandpoint & Interurban Railway Co., Ltd., will improve its line and build spur track to Great Northern Railway Depot. A. Filson, Sandpoint, Idaho, Pres., Gen. Mgr. and Pur. Agt.

Washington—Bellingham & Northern R.R. plans to extend line from Goshen, Wash., to Welcome, 11 miles. E. O. Reeder, Seattle, Wash., Ch. Engr.

Washington—Merrill & Ring Lumber Co., Everett, contemplates building logging railway from mouth of Pysht River in Clallam County. Estimated cost, $250,000.

Oregon—Southern Pacific Co. plans to electrify line from Whiteson to Corvallis, 43 miles. W. Hood, San Francisco, Calif., Ch. Engr.

New Brunswick—Department of Railways and Canals, Ottawa, will complete portion of St. John & Quebec Ry. (Canadian Government Railways), from Georgetown to Centerville. C. B. Brown, Moncton, N. B., Ch. Engr.

Quebec—Quebec Central Ry. contemplates extending line from English Lake, Que., to point in township of Dionne, L'Islet County, about 25 miles. J. H. Walsh, Aherbrooke, Que., Gen. Mgr.

Ontario—Plans being considered for hydro-radial railway from Petrolia to Chatham.

Ontario—Grand Trunk Ry. authorized to build sidings and spurs across number of highways in village to premises of Port Credit Land Co., Ltd. H. R. Safford, Montreal, Que., Ch. Engr.

Ontario—Plans being prepared for extension of line of London & Lake Erie Railway and Transportation Co. from Lambeth to Delaware. W. N. Warburton, London, Gen. Mgr. and Pur. Agt.

Alberta—Grand Trunk Ry. authorized to build railway spur for Great West Coal Co., Ltd., in northeast quarter of Section 6 and southeast quarter of Section 7-53-23, North Alberta. H. R. Safford, Montreal, Que., Ch. Engr.

Bids In and Contracts Awarded

Ohio—Contract for double-tracking line of Cincinnati, Hamilton & Dayton Ry. from Dayton to Cincinnati awarded to FERGUSON & EDMONSON, Pittsburgh, Penn. F. L. Stuart, Baltimore, Md., Consult. Engr.

Utah—Salt Lake & Utah R.R. awarded contract to WASATCH CONSTRUCTION CO. for grading of extension from Spanish Fork to Payson. Noted Nov. 11.

LIGHT, HEAT AND POWER

Proposed Work

Mass., Framingham—Edison Electric-Lighting Co., Boston, has applied for permission to place its wires underground in the business section. Estimated cost, $40,000.

Conn., Hartford—Connecticut Power Co., New London, has applied for a permit to enlarge its power house on Commerce St. Estimated cost, $197,000.

N. Y., New York—(Borough of Manhattan)—(Official)—Bids will be received by R. A. C. Smith, Comr. of Docks, Pier "A," Battery Pl., North River, until 10 a.m., Dec. 6, for furnishing and delivering boiler tubes.

N. Y., Tonawanda—General Electric Co., Buffalo, will build power plant at Tonawanda. Estimated cost, $2,000,000. C. R. Huntley, Pres.

Penn., Brackenridge—Municipal electric-lighting system will be installed in Brackenridge. S. B. Martin, Pittsburgh, Consult. Engr.

Md., Frederick—City Council considering plans for enlarging municipal electric-light plant. Estimated cost, $103,000. C. L. Reeder, Baltimore, Consult. Engr.

W. Va., Thurmond—Mt. Hope Electric Power and Water Co., Mt. Hope, has applied for permission to install and operate electric-light, water and sewer systems in Thurmond.

N. C., Statesville—An electric transformer station will be built at Statesville by Southern Power Co. of Charlotte.

Miss., Boonville—See item under "Water Works."

Miss., Clarksdale—Bids will be received by City Commissioners until Dec. 14 for furnishing equipment for improving power plant.

La., Church Point—Citizens plan to hold election to vote on bonds for electric-light plant and water system.

Ky., Mater—Electric-light system will be installed in Mater by Wiley W. Gibson.

Ohio, Cleveland—City Council authorized an expenditure of $75,000 for extending cable of municipal electric-light plant.

Ohio, Massillon—Massillon Electric and Gas Co. plans to improve its plant on Erie St. Estimated cost, $100,000.

Ohio, Salem—Municipal Service Co., Philadelphia, Penn., plans to take over the plant of the Salem Electric-Light and Power Co. and the Columbiana County Electric-Light and Power Co., Salem. Company contemplates an expenditure of $100,000 for improvements. H. T. Hartman, Philadelphia, Pres.

Ohio, West Salem—F. L. Berry has purchased electric-light franchise and system at $4,400.

Ind., Terre Haute—See item under "Buildings."

Ill., Galesburg—See item under "Water Works."

Wis., North Milwaukee—A. O. Smith Co., 27th St. and Keefe Ave., will soon award contract for boiler house. Estimated cost, $35,000.

Iowa, Clarinda—Clarinda Electric Light Co. will build power plant. Estimated cost, $80,000.

Iowa, Ft. Dodge—Citizens voted to issue $100,000 bonds for power dam in Des Moines River in connection with hydro-electric power plant for Ft. Dodge. Noted Oct. 14.

Iowa, Imogene—Plans for electric-light system in Imogene being considered.

Iowa, Low Moor—City plans to install electric-lighting system. Bonds for $4,500 authorized for this purpose.

Minn., Montrose—Plans being considered for electric-light system.

Minn., Rochester—(Official)—Bids will be received by Public Utility Board until 10 a.m., Dec. 6, for furnishing equipment for new power plant. Charles L. Pillsbury Co., Minneapolis, Minn., Engr.

Kan., Coffeyville—Election will soon be held to vote on $20,000 bonds for improving municipal electric-light plant.

Neb., Dixon—Election will soon be held to vote to issue bonds for electric-lighting system.

S. D., Chancellor—Press reports state that municipal electric-light plant will be installed in Chancellor.

S. D., Mitchell—Mitchell Street & Suburban Ry. investigating water power at Great Bend, 78 miles north of Mitchell, with view of installing power plant to supply electricity to proposed railway and surrounding towns.

Wyo., Cheyenne—An expenditure of $50,000 planned by Western Power Co., owner of Cheyenne Light, Fuel and Power Co., for improvements.

Mo., Springfield—Election will be held Jan. 11 to vote on $400,000 bonds for electric-light plant.

Okla., Heavener—Bonds for $20,000 voted by citizens for electric-light plant.

Okla., Shamrock—Plans being considered by Sapulpa & Oil Fields R.R. Co. to install electric-power plant to furnish electricity for operating machinery in oil fields and for railroad use.

Colo., Frederick—Citizens contemplate municipal electric-light plant.

N. M., Santa Fe—Plans of Rio Grande Light, Heat and Power Co. for raising dam in White Rock Canyon to furnish current to Albuquerque, Santa Fe, Las Vegas and other points approved by James A. French, State Engr. Estimated cost, $650,000.

Idaho, Arco—Public Utilities Commission granted franchise to Richard W. Ferris to build and operate electric-light and power plant and water system in Arco. Noted Nov. 25.

Ariz., Miami—Election will be held Dec. 14 to vote on $12,500 bonds for municipal gas plant.

Ariz., Miami—Election will be held Dec. 14 to vote on $40,000 bonds for municipal electric-light plant.

Wash., Woodland—North Coast Power Co. plans to build power line from Woodland to Vancouver.

Ore., Albany—Franchise has been granted William Hoeflich to install and operate electric-light plant in Albany.

Calif., Newport—Board of Trustees considering installation of gas distributing system. Estimated cost, $30,000.

Ont., Forest—Town Council contemplates installing hydro-electric lighting and power system. R. Karr, Clk.

Bids In and Contracts Awarded

R. I., Providence—(Official)—Contract for heating system in new school at Cole and Luzon Ave. awarded to WILLIAM E. DOHERTY, Providence, at $14,025.

N. Y., Buffalo—Fitzpatrick & Hoepfner at $67,500, submitted lowest bid for heating and power work, and Bison Electric Co. at $22,900, for electrical work at Buffalo State Hospital. Noted Sept. 16 and Oct. 28.

N. Y., Utica—Contract for installing ventilating system in Utica Free Academy awarded to MONARCH VENTILATOR CO., New York, N. Y., at $41,000.

S. C., Hartsville—Contract for installing heating plant in Coker College awarded to W. B. GUIMARIN & CO., Columbia, at $17,500.

Ala., Tuscaloosa—Contract for completing gas mains for Tuscaloosa Belt Railway and Utilities Co. awarded to MUNICIPAL ENGINEERING AND CONSTRUCTION CO., Atlanta, Ga. Estimated cost, $12,000.

La., New Orleans—Bids were received by Dock Board for underground conduits, wiring, etc., at municipal dock as follows: Marks Electric Construction Co., $21,690, Barnes Electric Construction Co., $21,700, W. A. Dilzell, $26,900. Ford, Bacon & Davis, Engr.

Wis., Bloomington—GLOBE ELECTRIC CO., Milwaukee, awarded contract for electric-light plant in Bloomington.

BRIDGES

Proposed Work

Mass., Salem—Plans being considered by County Commissioners for rebuilding Essex bridge across Danvers River between Salem and Beverly.

N. Y., Lancaster—(Official)—Bids will be received by F. H. Maute, Town Clk., until 3 p.m., Dec. 15, for two bridges in Transit Rd. between Lancaster and Cheektowga.

N. Y., Silver Creek—Two concrete bridges will be built in Silver Creek. Estimated cost, $14,500.

N. J., Highlands—Plans being prepared for bridge across Shrewsbury River at Highlands. Estimated cost, $35,000.

N. J., Newark—State Board of Commerce and Navigation is negotiating with Central R.R. of New Jersey for construction of new bridge over Newark Bay between Elizabeth and Bayonne.

N. J., New Gretna—Bridge will be constructed across Mullica River by Atlantic and Burlington Counties. Estimated cost, $80,000.

Penn., Bowmanstown—Lehigh Valley R.R. will build bridge across Lehigh River at Bowmanstown.

Penn., Erie—(Official)—Bids will be received by State Highway Department, Harrisburg, until 10 a.m., Dec. 15, for bridge near Kearsarge, Erie County.

Penn., Harrisburg—(Official)—Bids will be received by State Highway Department until 10 a.m., Dec. 7, for bridge across Four Mile Creek, Harborcreek Township, Erie County.

Penn., Philadelphia—City will build three reinforced-concrete bridges. G. S. Webster, Engr., Dept. of Public Wks.

Penn., Phoenixville—Bids will be received by County Commissioners, Norristown, until Dec. 11, for reinforced-concrete bridge over Schuylkill River. B. H. Davis, Consult. Engr., Whitehall Bldg., New York, N. Y.

Penn., Sunbury—(Official)—Bids will be received by Samuel B. Rambo, Supt. of Pub. Grounds and Bldgs., Harrisburg, until 2 p.m., Dec. 14, for 175-ft. steel truss bridge at Sunbury. G. A. Flink, Harrisburg, Engr.

Ga., Roswell—Commissioners of Cobb County, Marietta, will build steel bridge across Chattahoochee River at Roswell. Estimated cost, $6,000. Noted Oct. 28.

Fla., Ft. Lauderdale—See item under "Streets and Roads."

Ala., Birmingham—Plans being prepared for bridge over Cahaba River on Birmingham and Leeds Highway.

Ala., New Decatur—W. B. Edmundson is interested in a project to build a toll bridge at an estimated cost of $200,000.

Miss., Fayette—Bids will be received by J. C. Shelton, Clk., County Bd. of Superv., until Dec. 6, for steel bridge across Davenport Bayou.

Miss., Grenada—Bids will be received until Dec. 6 by County Supervisors for steel bridge near Leflore.

Miss., Woodville—Bids will be received until Dec. 6 by County Supervisors for three bridges over Buffalo Bayou.

Ohio, Akron—Plans being prepared for bridge across railroad tracks at Forge St. Estimated cost, $100,000, $75 000 of which will be paid by railroad company and $25,000 by city.

Ohio, Cleveland—Bids will be received by E. B. Krause, Clk. Bd. of Comrs. of Cuyahoga County, until 10 a.m., Dec. 8, for bridge work as per Report No. 3654.

Ohio, Dayton—Bonds for $115,000 voted by citizens for Mad River and Keewee St. bridge.

Ohio, St. Clairsville—(Official)—Bids will be received by B. W. Hopkins, Audr. of Belmont County, until 1 p.m., Dec. 13, for three bridges and one culvert on line of Jenewine Rd. in Wayne and Washington Townships, Belmont County.

Ohio, Warren—Bids will be received by Board of Commissioners of Trumbull County until Dec. 6 for superstructure of South Main St. bridge.

Ind., Evansville—Plans being prepared by Herman Laub, Engr., Pittsburgh, Penn., for bridge across Ohio River about six miles above Evansville. Estimated cost, $550,000.

Ind., Wabash—Bids will be received until Dec. 7 by Board of County Commissioners for Huntington St. bridge.

Mich., Ada—Bids will be received until Dec. 8 by Kent County Road Commissioners for steel bridge across the Grand River at Ada. Estimated cost, $30,000.

Mich., Lansing—Bids will be received by Frank F. Rogers, State Highway Comr., until noon, Dec. 9, for bridge No. 37 and 50.

Ill., Bellflower—(Official)—Bids will be received by R. O. Edwards, County Supt. of Highways, Court House, Bloomington, until 2 p.m., Dec. 18, for steel bridge in Lexington Township.

Ill., Watseka—(Official)—Bids will be received by B. Jordan, County Supt. of Highways, until 11 a.m., Dec. 15, for reinforced-concrete or steel bridge in Douglas Township, Iroquois County.

Ill., Watseka—(Official)—Bids will be received until 11 a.m., Dec. 15, at office of County Superintendent of Highways, for reconstruction of bridge No. 137 between Belmont and Milford Townships, Iroquois County.

Wis., Chippewa Falls—Press reports state that bridge will be built across Chippewa River above Paint Creek dam. Estimated cost, $55,000.

Wis., Prairie du Sac—Plans being prepared by M. W. Torkelson, Bridge Engr., State Highway Comn., Madison, for bridge across Wisconsin River at Prairie du Sac. Estimated cost, $75,000. Noted Nov. 11

Iowa, Epworth—Construction of viaduct being considered by Illinois Central R.R. A. S. Baldwin, Chicago, Ill., Ch. Engr.

Iowa, Iowa City—Iowa City Commercial Club is promoting the construction of a viaduct across the tracks of Rock Island Southern Ry. at College Ave. Estimated cost, $35,000.

Minn., Anoka—See item under "Streets and Roads."

Kan., Ft. Scott—City plans to build concrete bridge across Mormaton River on North National Ave. Estimated cost, $10,000.

Kan., Topeka—City plans to construct reinforced-concrete bridge over Shunganunga Creek on Sixth Ave. Estimated cost, $12,600.

Mont., Hamilton—Bids will be received by F. E. Robbins, Clk., Bd. of County Comrs., until Dec. 6, for destroying and removing old bridge across Bitter Root River east of Florence and building two new bridges across East Fork of Bitter Root River.

Mo., Warsaw—Bids will be received until 1:30 p.m., Dec. 14, by B. R. Burton, Clk. of Benton County, for bridge over Pomme de Terre River, Township 39.

Tex., Clarksville—See item under "Streets and Roads."

Okla., Purcell—An election will soon be held to vote on $100,000 bonds for bridge work in McClain County.

Okla., Vinita—(Official)—Citizens defeated $50,000 bonds for 17 bridges. Noted Nov. 4.

Wash., Pasco—Plans being prepared by C. E. Fowler, Consult. Engr., Central Bldg., for steel bridge across Snake River between Pasco and Burbank. Estimated cost, $50,000.

Bids In and Contracts Awarded

Maine, Kingsfield—SAUNDERS ENGINEERING CO., Portland, at $15,000, awarded contract for reinforced-concrete bridge over Carrabassett River.

Mass., Boston—Bids were received Nov. 22 for concrete bridge over Charles River at North Beacon St. as follows: A. G. Tomasello, 69 Gibson St., Dorchester, $117,352; Fred T. Leyl Co., Springfield, $119,560; Coleman Bros., Chelsea, $124,011. Noted Nov. 11.

R. I., Woonsocket—(Official)—Bids were received Nov. 23 for Hamlet Ave. and Fairmount St. bridge as follows: Hamlet Ave. bridge, E. W. Foley Contracting Co., New York, N. Y., $71,886; Brien & Bouvier, Boston, Mass., $73,152; Bruno & Petitte, Boston, Mass., $90,090; Fairmount St. bridge, Spaulding Construction Co., Suffield, Conn., $21,812; E. W. Foley Contracting Co., New York, N. Y., $23,795; E. B. Roberts Construction Co., Pittsfield, Mass., $24,742. Noted Nov. 4.

Conn., Hartford—Contract for reinforced concrete bridges and widening of causeway in Haddam Township awarded to DONAHUE BROS., Middletown, $6,217. Noted Nov. 25.

Conn., Hartford—Contract for concrete bridge on Hartford-Saybrook Turnpike, Chester Township, awarded to JOHN G. HOLBROOK, Westbrook, at $6,165. Noted Nov. 25.

N. J., New Brunswick—Contract for reinforced-concrete bridge over Tennents Brook on South Amboy-Bordentown Turnpike awarded to ERRICKSON & MORRELL, Moyton.

Penn., Allentown—Central of New Jersey awarded contract to PENNSYLVANIA STEEL CO., Steelton, Penn., for fabricating and erecting steel superstructure of new bridges over Lehigh River at Allentown. Estimated cost, $52,500.

Penn., Kennet Square—Contract for stone arch bridge over Red Clay Creek awarded to P. J. McCORMIC & SON, West Chester, at $5,598. Noted Nov. 11.

Penn., Philadelphia—Contract for reinforced-concrete bridge across Ludlow St. awarded to F. W. VAN LOON CO., Philadelphia, at $20,000.

Kan., Pittsburgh—Contract for bridge at West Prairie Ave. awarded to A. JAICKS CO.

Contracts to Be Let

Bids received until Dec. 14, 1915.

Drainage Works

Tempe, Ariz.

The Board of Directors of Drainage District No. 1, of Maricopa County, Arizona, will receive sealed bids for the construction of the portion of the proposed drainage works, hereinafter particularly described, until 2 o'clock p.m., Tuesday, December 14, 1915, at the office of the Board, at Tempe, Arizona.

The portion of the work for which bids will be received consists:

First: Of a main open drain ditch, approximately 8.4 miles in length; the upper or Northerly portion thereof approximately 40,350 feet in length, having a depth of from 6 feet to 12.5 feet, and the lower or Southerly portion thereof approximately 4,000 feet in length, having a depth of from 6 feet to 1 foot.

Said ditch begins at a point about 100 feet South and 55 feet East of the Northwest corner of Section 35 in T. 1 N. R. 4 E. in Maricopa County, Arizona, and extends South to a point near the East quarter of Section 22 T. 1 S. R. 4 E.; thence in a Southwesterly direction to Culvert B 16 on the line of the Arizona Eastern Railroad.

Second: Eleven structures consisting principally of reenforced concrete to be installed at various points where the line of the proposed ditch intersects highways, canals and ditches.

The portions of the work above referred to are particularly described in the drawings and specifications therefor adopted by said Board, which are hereby referred to for a more particular description of the work.

Each bid must be submitted on form furnished by the Board for that purpose and accompanied by a certified check, payable to Alfred H. Oeltjen, Secretary of the Board, for 5% of the gross amount of the bid.

Drawings and specifications for the above work are on file and can be seen at the office of the Board and at the office of the Engineer, L. G. Knipe, 16 South Second Avenue, Phoenix, Arizona, and bidders may obtain sets of these upon application and payment of $10.00.

The bids will be opened at the office of the Board at 2:00 o'clock p.m., Tuesday, December 14, 1915, and the contract will be let to the lowest responsible bidder, but the Board expressly reserves the right to reject any or all bids, or any part of any bid.

Dated at Tempe, Arizona, November 12, 1915.

J. W. MILLER,
ALFRED H. OELTJEN,
I. M. SAYLOR,
Board of Directors, Drainage District No. 1.

Bids received until Dec. 11, 1915.

Aluminum Sulphate

OFFICE OF SUPERINTENDENT CITY WATER WORKS,
Room 112, City Hall.

Richmond, Va.

Sealed proposals will be received at this office until 12 M. December 11, 1915, for furnishing this department with aluminum sulphate, high basicity for water clarification, containing seventeen per cent. aluminum oxide, delivered f. o. b. Korah Station, Chesapeake and Ohio Railway, in barrels, at such time and in such quantities as the superintendent may require. Bidders are requested to bid on one, two and three years' contract. Estimated quantity eight hundred (800) tons per year.

Further information can be obtained at this office. The Administrative Board reserves the right to reject any or all proposals or any part of any or all proposals, also to increase or decrease the specified quantities twenty per cent.

A certified check for two hundred dollars, payable to the City Treasurer, must accompany each bid.

Proposals must be submitted in sealed envelopes, containing the name and address of the bidder, directed to the Administrative Board, and in the lower left-hand corner must be written "Proposals for Aluminum Sulphate."

Bond will be required on contract.

E. E. DAVIS, Superintendent.

Bids received until Dec. 21, 1915.

Mont Clare Bridge Over Schuylkill River

BETWEEN PHOENIXVILLE AND MONTCLARE, PENN.

Sealed proposals will be received by the Commissioners of Montgomery and Chester Counties, at the County Commissioners' Office, Norristown, Pennsylvania, until 10 A.M., December 21, 1915, for the construction of a reinforced-concrete arch bridge of five spans over the Schuylkill River, connecting Phoenixville and Mont Clare, Pennsylvania.

The plans and specifications including form of proposal and bond may be seen at the County Commissioners' Office, Norristown, Pennsylvania, and at the County Commissioners' Office at West Chester, Pennsylvania, and at the offices of "Engineering News" and "Engineering Record," in New York City.

Copies of the plans and specifications may be obtained from the Consulting Engineer, B. H. Davis, Whitehall Building, No. 17 Battery Place, New York City, upon deposit of Twenty-five ($25.00) Dollars, which sum will be refunded upon the return of all papers in good condition.

Each proposal must be accompanied by a certified check drawn to the order of the Commissioners of Montgomery and Chester Counties for the lump sum of Five Thousand ($5,000.00) Dollars, and by a guaranty signed by an acceptable surety company, in separate enclosures, that the bidder will, if awarded the contract, enter, within ten days, into a contract, and furnish satisfactory surety company bond for the construction of the bridge.

The certified checks of the unsuccessful bidders will be returned as soon as the contract is awarded. A satisfactory surety company bond for seventy-five (75%) per cent. of the contract price will be required of the successful bidder.

All regular proposals accompanied by certified checks and guaranties in separate enclosures, received at 10 A.M. will be publicly opened and the bids tabulated at 11 A.M., December 21, 1915, in the County Commissioners' Office, Norristown, Pennsylvania. The right is reserved to reject any and all bids or parts thereof not deemed to the advantage of the Counties.

JOHN N. JACOBS,
Controller of Montgomery County.
ISAAC Y. ASH,
Controller of Chester County.

Bids received until Dec. 8, 1915.

Mullica River Bridge

Atlantic City, N. J.

Sealed proposals will be received for building a bridge, 742 feet long, composed of creosoted pile trestle approaches, steel trusses and bascule draw span with wood block floor and concrete substructure, over the Mullica River at Chestnut Neck, near New Gretna, N. J., according to plans and specifications on file with the Engineers for Atlantic and Burlington Counties. The bids will be received by the Boards of Chosen Freeholders of the Counties of Atlantic and Burlington at the G. A. R. Hall, New York Ave., Atlantic City, N. J., at 12 o'clock noon on Wednesday, December 8th, 1915, and opened immediately thereafter.

Plans and specifications may be obtained from A. H. Nelson, Guarantee Trust Building, Atlantic City, N. J., or from James Logan, Mount Holly, N. J., by depositing $5.00. This sum will be refunded if plans and specifications are returned in good condition by 12 o'clock noon, December 9th, 1915, otherwise not.

The right is reserved to reject any or all bids.

A. H. NELSON,
Atlantic County Engineer.
JAMES LOGAN,
Chairman Atlantic County Bridge Committee.
Burlington County Engineer.
JOHN K. JOHNSON,
ALFRED I. DAVIS,
Director, Burlington County.
